#### Appendix A

##### 6<sup>th</sup> Avenue Road Project and Stormdrain Project

Gas Tax Money shall be used for the 6<sup>th</sup> Avenue Project in Twin Bridges. This project includes installing storm drains along Sixth Avenue and then paving the road. The storm drains must be installed first in order to clear the water off the road. After this is completed the road will be paved and curb and gutter and sidewalk (funded by a grant and matching funds) will be installed. Total project cost is \$444,000. Project was primarily completed August 2020, but there is the potential of changes to the road for runoff purposes, prior to close out of the project. This could generate an additional cost to the Town Spring of 2021.
